

## AC 201

# AutoCAD Advanced

<b>Course Length</b>	3 days
<b>Schedule</b>	9:00am – 4:00pm
<b>AIA CEUs or PDHs</b>	21
<b>Price</b>	\$995 per person

### Prerequisites

This course requires the student to have taken the *AC 101: AutoCAD Fundamentals* class, an equivalent class, or have 80 or more hours of AutoCAD<sup>®</sup> experience prior to registration.

### Designed for

Those who are experienced AutoCAD<sup>®</sup> users who wish to expand beyond their basic skills and learn AutoCAD's more advanced functionality.

### What you get

Autodesk<sup>®</sup> Authorized Training Courseware, an industry recognized Autodesk<sup>®</sup> Authorized Training Center Certificate of Completion, extended telephone support for 90 days, and all the knowledge to bring you to the next level with AutoCAD<sup>®</sup>

### Notes

The course length is a guideline. Course topics and duration may be modified by the instructor based upon the knowledge and skill level of the students.

All classes will be taught on the most current release, depending on availability of courseware.

Group rates and on-site training are also available.

### Training Center Locations

Watertown, MA  
Stoughton, MA

Hauppauge, NY  
Dover, NH

### Course Plan

The AutoCAD Advanced class introduces advanced techniques and teaches you to be proficient in your use of AutoCAD<sup>®</sup>. This is done by teaching you how to recognize the best tool for the task, the best way to use that tool, and how to create new tools to accomplish tasks more efficiently.

### Topics Covered

- Advanced text objects
- Working with tables
- Dynamic blocks
- Attributes
- External references
- Other tools for collaboration
- Introduction to sheet sets
- Publishing and customizing sheet sets
- Managing layers
- CAD standards
- System setup
- Introduction to customization
- Customizing the user interface
- Macros and custom routines
