Autodesk NavisWorks Essentials

Course Length	3 days*
Schedule	9:00am – 4:00pm
AIA CEUs/PDHs	21
Price	\$995 per person*

Prerequisites

Before using this courseware, students should have working knowledge of 3D design and task-scheduling software.

Designed for

The course is designed for new and experienced NavisWorks users who need to become familiar with all the main tools within NavisWorks.

What you get

Autodesk Official Training Courseware, an industry recognized Autodesk Authorized Training Center Certificate of Completion, extended telephone support for 90 days, and all the knowledge to get you started with NavisWorks.

Notes:

The course length is a guideline. Course topics and duration may be modified by the instructor based upon the knowledge and skill level of the students.

All classes will be taught on the most current release, depending on availability of courseware.

Course Plan

The primary objective of this course is to teach students how to combine 3D geometry from cross disciplines into one scene to enable effective model reviews. In this course, using hands-on exercises that demonstrate the functionality of the Autodesk NavisWorks Review, Simulate, and Manage features, students learn how to open, review, and run object-interference checks on 3D models. Students also learn how to link to task-scheduling files and create 4D construction simulations. Using the Animator and Scripter tools, students create interactive animations. In addition, students learn how the Presenter tools can help them to create photorealistic images and animations. This course provides students with the skills and knowledge to use NavisWorks effectively.

Topics Covered

- Getting Started with NavisWorks
- Review
- TimeLiner
- Animator
- Scripter
- Presenter Basics
- Advanced Presenter Features
- Clash Detective

***2 day option:** Price \$745; which excludes material covered on Day 3 (Advanced Presenter and Clash Detective).
